The managers of the Milwaukee & St. Paul pursued an exactly opposite course. They made the most strenuous efforts to keep things moving, and as a result it is probable that the strike on the St. Paul will culminate to-morrow in a renewal of the strike on the Pan-Handle. A train was got in readiness so that the attempt can be made to transfer St. Paul freight to the Pan-Handle, and as the employes of the latter were pledged to support the St. Paul strikers, there is little doubt that they will refuse to handle the freight and a strike will ensue.

The firemen, engineers and switchmen employed by the Lake Shore are dissatisfied with affairs and may not wait until election day to go out.

The switchmen, it will be remembered, were set to work during the big strike. It is now known that the Switchmen's Union has offered to take them into the Union and thus square the difference that has existed for nearly two years. The dissatisfaction among the stock yard men was communicated to the men employed by the Chicago & Eastern Illinois, and with the Lake Shore they are simply waiting for their turn to step out.

POOR MAISH'S INFATUATION.

The disclosures made as to Luther R. Marsh's connection with Mme. Editha Loleta Diss Debar, and as to the dominion which that astute lady exercises over the old lawyer's mind and property nave caused much comment in legal circles.

They have already led to the retirement of Mr. Marsh from the law firm of Marsh, Wilson & Wallis, and the question of having him removed from his now being agattated.

Mr. William G. Wilson, Marsh's late barrier, said that the change in Mr. Marsh will be held early narlier, said that the change in Mr. Marsh will be held early next week, to try and devise ways and her triedening from the large, with the circle in the condition first became apparent about seven months ago, when her tricker of the mother was thought to be at the point of death, and then I saw it month? ago the mother was thought to month? sago the mother was thought to be at the point of centre was thought to month? ago the mother was thought to month? Mr. William G. Wilson, Marsh's late pariner, said that the change in Mr. Marsh's mental condition first became apparent about seven months ago, when he tried to convert Mr. Wilson and Mr. Wallis to his newly acquired Spiritualistic views, and told them that he had installed Mme. Diss Debar in his house. Several of the old gentleman's friends

Several of the old gentleman's friends went to the house and became convinced that he was being grossly imposed upon by designing people. Little by little he yielded control of house and property to Mme. Debar and the Wallaces, and as they gained more of an ascendancy over him he took less and less interest in his law business.

Having imbued him with implicit faith that the pictures and letters came direct from saints and sages whose authority he recognized, they used the letters as a means of getting him more completely in their power,

ing in faith in them that lead thee to the light. Beware of too great a love of this world's goods."

By alternate reproaches and praise from the spirit world he was made to do just what was wanted.

Lawyer Wilson also said he thought it was useless to attemnt to get Mr. Marsh to abandon: Mme. Diss Debar and her mysteries. Intimate friends of his had pleaded and reasoned with him, but
